Unlocking the full potential of your machines

EROWA Wire EDM Tooling The modular tooling system for WEDM purposes

EROWA tooling systems make WEDM centers considerably more flexible and productive. Down-times can be virtually eliminated. Expensive machines can work round the clock.

Our program contains system components for newcomers, for those who would like to extend the use of ITS, and for top-end users. You define the framework and you are bound to win.

STANDARDIZATION 223 EROWA WIRE EDM TOOLING

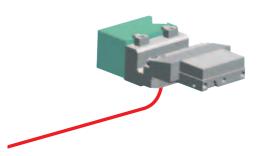

Applications

Handling

Manual / Loading facility / Robot

- Modular tooling system.
- Single and multiple palletization.
- Repeatability of clamping elements 0.002 mm.
- WEDM basic kits for all popular WEDM centers.
- Can be automated with EROWA handling handling facilities.

EROWA Wire EDM Tooling Quick and precise resetting

The right solution for every application. With well-thought-out combinations of vises, clamping elements and clamping beams, any conceivable workpiece can be clamped. The repeatability of EROWA's Wire EDM tooling system allows for workpieces to be preset outside the machine and for safe automatic loading. Ongoing jobs can be interrupted for express jobs and then continued later.

FLEXIBLE

Suitable workpiece carriers for all workpiece sizes.

Use removable supports where they make sense. Thread in EDM wire through the special grooves.

Adjustable in all axes: the pendulum holder with fitted flat vise.

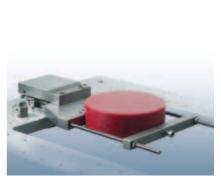

Use removable supports where they make sense. Thread in EDM wire through the special grooves.

STANDARDIZATION 225

EROWA Lift to load the WEDM center.

Special accommodation for cylindrical parts. Fitted to the pendulum holder, workpieces can be adjusted in three axes.

Single palletization in a manned shift: this is where the tricky jobs are done.

EDM electrode holders are positioned on the WEDM center for machining both quickly and with high precision.

Its low design creates more space for workpieces.

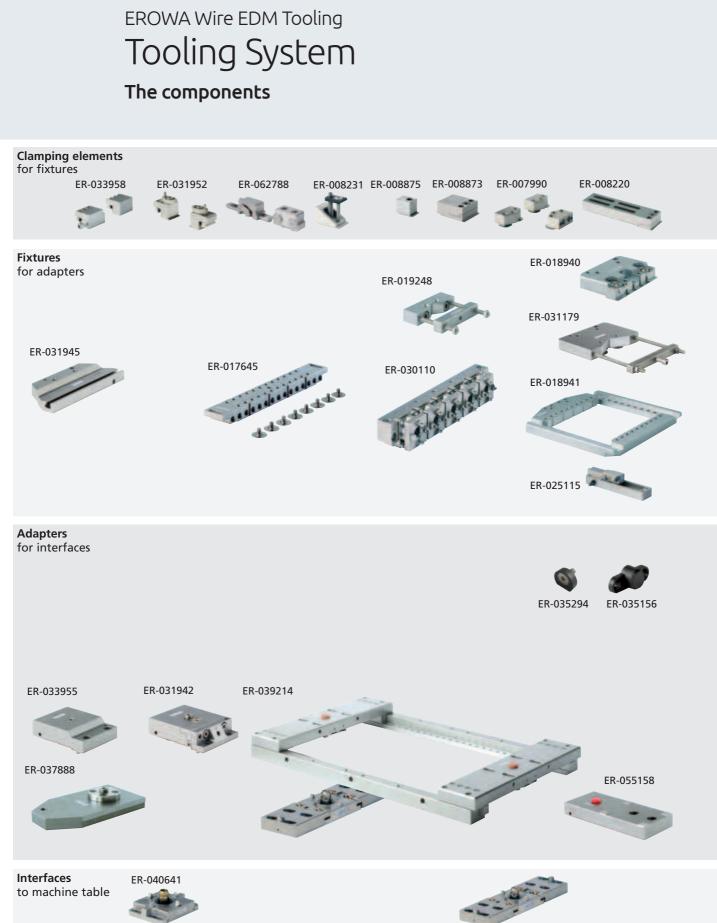

Presetting the workpieces saves time.

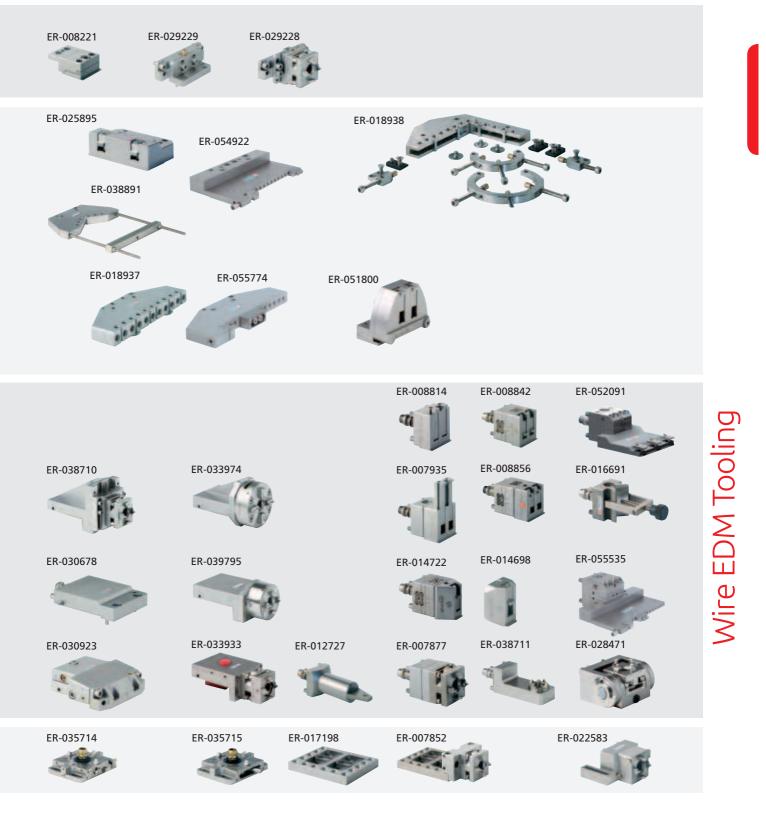

Presetting made easy. While the WEDM center is in operation, the next job is being preset quickly and accurately on the EROWA PreSet station.

Load Robots for more autonomy at night and at weekends. Well be glad to advise you how to increase your productivity with an EROWA handling facility.

To make it easier for you to find your way about the fields of application for EROWA products, we use the following symbols in all our documents:
